Dataset metadata

This dataset provides 2011 Census estimates that classify the workplace population in England and Wales by country of birth. The estimates are as at census day, 27 March 2011.

These statistics are used to allocate resources and to develop and monitor policy; to assess the needs of particular groups in the population, for example those migrating from outside the EU; to analyse trends in migration; to forecast future migration patterns; and for the planning and provision of facilities and services.

Statistical Disclosure Control

In order to protect against disclosure of personal information from the 2011 Census, there has been swapping of records in the Census database between different geographic areas, and so some counts will be affected. In the main, the greatest effects will be at the lowest geographies, since the record swapping is targeted towards those households with unusual characteristics in small areas.

More details on the ONS Census disclosure control strategy may be found on the [Statistical Disclosure Control](#) page on the ONS web site.

Variables

geography

The following types of geography are available:

2011 census workplace zones, 2011 super output areas - middle layer, local enterprise partnerships (as of April 2017), local authorities: district / unitary (prior to April 2015), regions, countries

Country of Birth

Country of birth is the country in which a person was born. The country of birth question included six tick box responses - one for each of the four parts of the UK, one for the Republic of Ireland, and one for 'Elsewhere'. Where a person ticked 'Elsewhere', they were asked to write in the current name of the country in which they were born. Responses are assigned codes based on the National Statistics Country Classification.

The grouping of countries within the classification is broadly regional, but takes into account the grouping of European Union (EU) countries. Countries in the EU are grouped into those that were EU members in March 2001, and those that became members (Accession countries) between April 2001 and March 2011 as part of the EU enlargement process.

The following Country of Birth are available:

- | All categories: Country of birth
- | Europe: Total
- | Europe: United Kingdom: Total
- | Europe: United Kingdom: England
- | Europe: United Kingdom: Northern Ireland
